BULGARS PEACE TERMS OFFERED TO TURKEY

LONDON, Nov. 16.—According to the Vienna correspondent of the Daily Telegraph, the Bulgarian terms of peace as laid before the Turkish government consist of seven stipulations:

The surrender of the Thessaly army and its withdrawal, guarded by Bulgarians.

The evacuation by the Turks of Adrianople, Scutari, Monastir and Janina.

Payment of a war indemnity.

The surrender of conquered territory.

The internationalization of Constantinople.

The opening of the Dardanelles and the making of Salonika a free port.

According to a dispatch to the Morning Post from Constantinople, Bulgaria demanded the surrender of the Turkish army at Thessaly within forty-eight hours, and when that time elapsed yesterday Kamil Pasha, the Grand Vizier, called at the Russian embassy and discussed on the subject of peace in the presence of M. Popoff, first dragoman of the Bulgarian legation, who has been staying at the Russian embassy since the outbreak of the war.

SPECIAL SESSION SERVICE IDEAL OF CHRISTIAN CONGRESS TO BE CALLED WORKERS

President-Elect Wilson Says Date Will Not Be Later Than April 15

ANNOUNCEMENT MADE IN INTEREST OF BUSINESS

Also to Begin Redemption of Party Pledges Made for Tariff Revision

NEW YORK, Nov. 16.—"I shall call Congress together in extraordinary session not later than April 15. I shall do this, not only because I think the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be, should be removed as soon as possible."

In the above statement President-elect Wilson last evening took the first step toward carrying out his pledges to the people, announcing his purpose of calling an extra session of Congress not later than April 15, instead of waiting six months after he assumes the Presidency, on March 4, for the regular session to convene.

The statement was given out not only to remove uncertainty in the business world, but to insure the President-elect a quiet vacation at Bermuda, or which place he sailed with his family at 2 o'clock today on the steamer Bermudian.

TWO MEXICAN SHOPLIFTERS ARRESTED ARE SUSPECTED BURGLARIZING THE WARDROBE

Stolen Suit and Hat Found in Their Room—Today Two Other Mexicans Arrested for Shoplifting

Two shoplifter-burglar Mexicans were arrested last night and put in the county jail. Yesterday afternoon they entered the Santa Ana Cloak & Suit House at 209 East Fourth street and got away with a woman's ready made dress, worth \$8, and Miss O'Donnell's Millinery Store at 115 West Fourth street, where they stole a hat worth \$6.50. Sheriff Ruddock has good reason to believe that they are the men who burglarized the Wardrobe and Kenton's Grocery on the night of Oct. 28.

This afternoon two more Mexicans were arrested, charged with shoplifting. These two give their names as S. R. Carosco and Castulo. At Brydon Bros. one man bought a small purse, and the other stole six pairs of men's gloves. City Marshal Jernigan, Sheriff Ruddock and Under-Sheriff Squires caught the two near the depts. In a suit-case the gloves and a package of Mexican "dope" weed were found. Carosco declares he knows nothing of Medrano. These two were taken to jail, where the two arrested last night already were.

The Mexicans give their names as Jose Molino and Juan Perez. Sheriff Ruddock and Under-Sheriff Squires had their eyes on this pair as soon as they saw them on the streets yesterday, and they laid their plans to catch them. They saw the two men go into the Santa Ana Cloak & Suit House, and it was not until the officers went into the store that those in the store knew that a theft had occurred. Practically the same thing took place at Miss O'Donnell's Store. The shoplifters worked with a cleverness that would have been successful had not the officers had their eyes on the two men, known to them as thieves.

City Marshal Jernigan joined in the work soon after the two stores were visited. The two Mexicans were arrested on the sidewalk in front of the Japanese poolroom opposite the post office. Sheriff Ruddock and Under-Sheriff Squires went immediately to the Glen-

I see no reason why other important matters shall not be considered also."

The senatorial ranks from Colorado, Delaware, Kansas, Nevada, New Jersey, Montana, Oregon Democrats will replace Republicans while Maine and Virginia Democrats will lose two each. Illinois and Tennessee are in doubt.

CABINET MAKING

Cabinet making occupies the attention of the newspapers now, and naturally, for the failure or success of many presidents has been brought about by the weak or strong points of his advisers.

Originally the cabinet ministers were principally heads of departments, practically foremen of the big government shop. Lincoln appointed some of his leading rivals, and often used to say that he had very little influence with his administration.

Of recent years the cabinet minister has become principally an adviser to the president. He cannot be expected to know all the details of the department under him. He should have very high grade assistants, who could go over from one administration to another as long as they could work harmoniously with the party in power.

One of the reasons for the success of Mr. McKinley as president was that he always kept a harmonious cabinet. When one of his ministers went out to give an address, he was listened to with about as much attention as if the president were speaking, as it was known that the president's views were being faithfully presented.

The story is told of President Grant, that at one time when all the members of the cabinet voted in the affirmative on a certain proposition, he voted No. He announced the vote as "The noes have it." At one time he wanted the resignation of Postmaster General Jewell, and he asked him to remain a moment after the meeting. Without prelude he asked for his resignation.

Mr. Jewell said that he would write it as soon as he got back to his office. "You will find pen and ink right on that table," said the president, and the resignation was written immediately.

This may seem a blunt dismissal. But a president will never make a success unless he maintains a fair degree of harmony and sympathy among the men upon whose cordial support he must primarily depend.

CUTTING DOWN SPEED

The abandonment for the time being at least of the 18-hour speed between New York and Chicago on the New York Central and Pennsylvania roads, may be significant of some reaction against speed.

Theoretically, these trains have been run to save business men a couple of hours time. One suspects, however, that the sporting desire for speed has sold more tickets on them than the economy of working time.

Fast train running appeals to the same instinct that pleases the small boy in the snow country, who experiences indescribable thrills of delight as he coasts down some precipitous hill, while his parents at home momentarily expect to see him return by ambulance.

The trains referred to on the two first class roads referred to may be substantially as safe as any others. The worst of such railroad racing is that it tempts second rate roads ill equipped for speed to attempt similar records.

When you reach your destination on a fast train, you may have to wait around for hours for the time of your appointment to come. But with what pride you sit in the hotel smoking room, and discourse to chance acquaintances about those seventy miles per hour spurts of speed. You get all the elation of the automobile scorchers, without any danger of being run into court and made to give up \$25 by some justice of the peace.

The great majority of engineers are splendid fellows, noble examples of courage and responsibility. But there is always a drifting element in the business, of a rough rider type, who handle a train about as they would a wild broncho.

Railroad operation is only as safe as its weakest link. If the most insignificant little cross roads branch line freight train is operated by a daredevil, it may end in a heap of wreckage that will ditch the fast express, even though the latter may be in the hands of a trained engineer as responsible as an ocean steamship captain.

According to the estimate of the Lima Bean Growers Association of Ventura the Southern California bean crop for 1912 was as follows, the unit being an 80-pound sack: Santa Barbara county, 100,000 sacks; Ventura county, 800,000 sacks; Los Angeles county, 80,000 sacks; Orange county, 177,000 sacks; San Diego county, 65,000 sacks. Total, 1,222,000 sacks.

STORY OF THE SEXTANT.

A Chance Observation That Gave Godfrey a Great Idea.

The element of chance plays an important role in invention and in no case is this more strikingly illustrated than in that of Thomas Godfrey, the American who improved upon the quadrant, or, rather, devised the sextant, the basic notion for which he got by noting the reflection of the sun from a pall of water.

Godfrey was a glazier by trade, but he had a taste for mathematics and was a man of some culture.

John Hadley had also invented a sextant, apparently a development of a suggestion of Newton's, found among his papers at his death. Godfrey anticipated Hadley by about one year, but for a long time his claims were not recognized. Hadley receiving the entire credit.

The glazier thus received his inspiration for the instrument that was to prove of such value to mariners. One day, while replacing a pane of glass in a window of a house in Philadelphia opposite a pump, he saw a girl, after filling her pail, put it upon the sidewalk. The observant glazier saw the sun reflected from the window on which he had been at work into the bucket of water. His mind quickly perceived the significance of the situation, and he was thus led to the design of an instrument "for drawing the sun down to the horizon," a device incomparably superior to any that had hitherto been used for the ascertainment of angular measurements.—Harper's Weekly.

THE SIMPLE LIFE.

No Trouble For Australian Aborigines to Break Camp.

An Australian aborigine breaks the monotony of his life by frequent visits to other camps, but his preparations for these holidays have a simplicity about them which must appeal to many a worried housewife. It is thus described by Messrs. Spencer and Gillen in "Across Australia."

"Apart from ceremonies and dances, the one great break in the monotony of life is paying visits to strange camps. Packing up is not a tedious process. The man simply walks out of camp, carrying his spears, spear thrower, boomerangs and shield; the woman takes the youngest child across her hip, balances a pith on her head, and, with one arm round the child and a digging stick in her free hand, she is ready for the road. The girl children and younger women look after the puppies, which are never left behind on any account, and, when unable to walk, are carried in piths like young babies.

"Two minutes at most is all the time required for an aboriginal family to pack up and start and there is no trouble in regard to the house while the owners are away. If any one chooses to occupy it during their absence he can do so, but the owners will see at a glance who has been in possession while they have been away."

He Found the Ghost.

"Talking about ghosts," said the janitor of one of the best known concert halls in the city, "makes me think of the scare I got the other day when I went into the auditorium after some supplies I had left back on the stage. As I stepped into the place I heard a scraping and hauling on the stage. Some one was puffing and blowing and then whistling a bit. For the moment my hair began to stand up. I managed to get to one of the switches and turned on the light. There was the ghost! One of the piano houses had sent over one of their blind tuners to fix up a piano and there he had been working away in the dark, his tools scattered around the stage and parts of the piano strewn about."—New York Sun.

Hostel and Inn.

At one time the words "hostel" and "inn" were not confined to licensed houses, but were applied to lodging houses. The "inns" of Oxford and Cambridge, very numerous before the introduction of colleges, were regulated by the college authorities. The inns of court were provided for the accommodation of law students. In olden times country houses of the aristocracy, during the absence of the owners, were used as "inns," or guest houses. It was then the rule to hang out as signs the arms of the owners; hence the origin of public house signs.—London Globe.

Making It Easier.

"George Dinglebat, isn't this the ninth time you have asked me to marry you?"

"Very likely, Laura. And say, why can't we have an understanding in the matter—a division of labor, as it were? I'll do the asking, and you keep tab."—Cleveland Plain Dealer.

The Real Thing.

"Do these emotional actresses ever shed real tears?" asked Mrs. Grouch, between acts.

"Sure," replied Mr. Grouch. "Every now and then they hit a bum town and get a peak at the box office receipts."—Cincinnati Enquirer.

SHE DIDN'T LIKE CARLYLE.

Janet Ross Tells a Couple of Tales to Judge the Aversion.

Two good stories of Carlyle appear in "The Fourth Generation," by Janet Ross, the daughter of the brilliant Lady Duff Gordon.

"The one of our many visitors to Queen square whom I cordially disliked was Mr. Carlyle. He was a great friend of Mrs. Austin and professed to admire Lucykin, as he called my mother, very much. One afternoon he had a discussion with her on German literature, and, her wonderful eloquence and fire prevailing, Carlyle lost his temper and burst forth in his Scotch tongue, 'You're just a windbag, Lucy; you're just a windbag!' I had been listening with all my ears, as my grandmother always spoke with such enthusiasm about him; but, furious at my mother being, as I thought, 'called names' by so uncouth a man, I interrupted and exclaimed, 'My papa says men should be civil to women!' For which pert remark I was reproved by my mother. Mr. Carlyle, however, was not offended and only observed, 'Lucykin, that child of yours has an eye for an inference.'"

At a later age she had this experience with him: "My cousin, Henry Reeve, the great Henry, as we called him, while others irreverently knew him as 'Baron Puffendorf,' was always kind to me. When I stayed with him in Rutland Gate I took up my cob, and we used to ride in the park with his friend, Charles Greville, whom I did not much like, with Deane, jaunty and kindly, who had a smile and a nod for every one and looked fresher than many of the young girls, although he was up till 2 or 3 every morning at the Times office, and with Mr. Carlyle.

"Henry welcomed Carlyle with effusion, but generally managed that Deane or Charles Greville should ride with him, while I had to go with Carlyle. One day as we were trotting his wideawake blew off. A civil workman picked it up and ran after us. Instead of giving him a shilling or even a twopenny, Carlyle said: 'Thank ye, my man. Ye can just say ye've picked up the hat of Thomas Carlyle.' I felt so ashamed that I told Etothen he must come and meet me in the park and take me away from the sage."

BULLIOT'S RASH BET.

A Banker's Wagers on St. Swithin's Day Rain Legend.

There were few frenzied financiers in England at the beginning of the eighteenth century if the banker Bulliot, of whom the following story is told, can be taken as an example: The feast of St. Swithin, July 15, 1725, was a particularly wet and stormy day.

Trusting implicitly in the old superstition which says that if it rains on St. Swithin's day it will rain for forty days thereafter, Bulliot opened a pool for every one who was willing to bet against him. The affair attained so much notoriety that the wager was reduced to writing.

"If, dating from St. Swithin's day," reads the memorandum, "it rains more or little during forty days successively Bulliot will be considered to have gained, but if it ceases to rain for only one day during that time Bulliot has lost."

For two weeks it continued to shower every day, and no confident did the banker become that he accepted as stakes not only money, but gold headed canes, jewels, snuffboxes and even clothes. When his cash gave out he offered notes and bills of exchange. Another week passed, and Bulliot's star was still in the ascendant.

But when the twenty-second day sank into the west bright and cloudless the unfortunate banker was ruined.—London Graphic.

Naming a Town.

The late Colonel Sanders was canvassing Montana for votes for himself for governor. He came to a little settlement, not yet named.

He met a man and said, "I am Wilbur F. Sanders."

"Yes," said the man.

"I am running for governor. Will you vote for me, my friend?"

"No."

"Well," said Sanders, producing a bottle, "will you have a drink?"

"You bet!" said the man.

And that is actually the way the town of Ubet got its name.—Philadelphia Saturday Evening Post.

Doesn't Like to Move.

A most curious and sluggish creature is the tautawa, a nice little lizard whose home is in New Zealand. This little imitation saurian has the reputation of being the laziest creature ever created. He is usually found clinging to rocks or logs along the shores of rivers and lakes and has been known to remain in one position perfectly motionless for many months. How the creature manages to exist is a mystery.

A Basis of Confidence.

"By Jove," said Wilkes after the vaudeville performance was over, "it must take a lot of nerve for that man to lean up against a board while his wife hurled all those knives at him."

"Nerve nothing!" retorted Bilkes. "He's perfectly aware she couldn't hit him if she tried."—Harper's.

Explained.

"I hear Miss Strongminded has chucked poor Thompson," said Danby.

"Bad, but true," said Wilkins.

"Why, I always thought Thompy was a brick," said Danby.

"He is," said Wilkins. "That's why she threw him, I guess."—Judge.

R. R. ENGINEERS TO WIN PAY INCREASE

CHICAGO, Nov. 16.—It was intimated here yesterday that the arbitration committee selected to decide the differences between the eastern railroads and their locomotive engineers has come to a decision.

According to unofficial advice the decision of the arbitrators is to "standardize" the pay of the engineers on forty-eight eastern railroads, which means a victory for the employees. It will mean a decided raise in wages for the men employed by practically all of the roads except the New York Central and the Pennsylvania system.

It was also hinted that the report of the arbitrators will be not unanimous, but Messrs. Willard, president of the Baltimore and Ohio, and Morrissey, president of the railroad employees and investors' society, will file a minority report as a matter of form, each man disagreeing with the findings of the majority. While the decision will be binding on all the parties it will be only operative until May 1, 1913, and will be retroactive as if made for May 1, 1912.

Pomona to Have Reproduction of Hacienda of Early California Period

POMONA, Nov. 16.—Dr. F. W. Fundenberg, Pasadena capitalist, who recently bought the site of Hotel Palomares for \$125,000, is planning an ideal Southern California home on the location.

SUCCESSFUL CHURCH TEA

Program of Music and Readings Enlivened "At Home" of Mission Society

A large number of ladies enjoyed the excellent entertainment offered yesterday afternoon at the "At Home" of the Woman's Missionary Society of the First Methodist Episcopal church. The affair, which was a special one, was held at the home of Mrs. Frank J. Rogers, 1010 Ross street. House decorations were in red, white and blue and included a flag, which is the emblem used by this society.

A guessing contest was one of the versions that proved attractive, and the program given included two piano solos by Miss Violet Wisseman and a Myrtle Law; a Thanksgiving poem read by Mrs. C. W. Burns, and an excellent talk on Alaska by Mrs. F. Spence. In her talk Mrs. Spence told of the volcanic disturbances occurring in Alaska last June with such wide-spread damage. Her information was taken from a personal letter from Alaska and proved most interesting. Conversation waxed lively over the delicious refreshments that were served after the program, and it was evident that a good time was enjoyed by the fortunate enough to attend the affair. Strangers in town are particularly welcome at these monthly At Home and find them favorable for making acquaintanceships.

Pretty Birthday Tea
Mrs. Mary J. Hoffman of 521 East Main street was the complemented guest at a pretty birthday tea given Friday afternoon. The happy affair was held at the home of Mrs. Hoffman's daughter, Mrs. Homer L. Cole and Mrs. Asa Hoffman.

In the living room the color scheme was yellow and in the dining room a delicate combination of lavender and white was used.

The climax of the afternoon meal was reached when the birthday cake, glowing with its tiny candles, was brought in and each guest after making a loving wish for Mrs. Hoffman blew out her candle, thus insuring the fulfillment of every wish.

Covers were laid for the honoree, Mesdames E. W. Boynton, A. L. Havens, M. C. Cole, Misses Albertine Delavan, and Nellie Grant, and the little grandson, Clifford Cole.

Whist Party
Dr. and Mrs. W. A. Flood were hosts on Thursday night with a progressive whist party. Violeta, beautiful and fragrant, adorned the rooms. In the games, Mrs. Messier of Anaheim was successful in winning high score and its prize, and the consolation prize went to Mrs. Rowland.

Gentlemen's first prize was taken by F. C. Rowland and Mr. Messier took consolation. The card tables were later used for the serving of dainty refreshments.

The guest list included Messrs. and Mesdames F. C. Rowland, R. R. Miles, Harlan Kittle, Clarence Harris, Dr. and Mrs. Harry Cook, Carl Struck, Mrs. A. A. Avery, Frank Avery, Mr. and Mrs. Lloyd Messier of Anaheim.

Household Economics Holds Meeting
The Third Economics section of the Ebell held a very pleasant and interesting meeting November 15th, with Mrs. E. H. Prince, assisted by Mrs.

DAUGHTER OF "PATH-FINDER" UNFURL FLAG AT MUSEUM DEDICATION

Elizabeth Benton Fremont, daughter of the famous "pathfinder," John C. Fremont, and who yesterday passed her seventieth birthday at her home at 3004 South Vermont avenue, will today unfurl the flag her father raised on the crest of the Rocky Mountains, August 16, 1842, says the Los Angeles Examiner. The unfurling is a part of the program attending the ground-breaking for the Southwest Museum, to be located on Museum Hill. The ceremonies will begin at 2 o'clock.

The flag, which Miss Fremont has presented to the museum, has been in the possession of the Fremont family since they followed West the pathfinder, who made his way across the plains. Miss Fremont, at the time her father received the commission from the government to explore the West, was a little girl, living with her mother at Washington.

Fred Robinson and Mrs. Pearl Williams.

Twenty members responded to roll call by giving current event items. With autumn leaves and Shasta daisies used in profusion, the rooms were very pretty indeed and displayed much thought and taste. Mrs. Robinson gave a very interesting paper on "Food for Invalids," which brought out many experiences and discussions.

Dainty refreshments consisting of crustless pumpkin pie with whipped cream, sandwiches and coffee were served, each individual tray being beautifully decorated with bright, red autumn leaves.

An interesting meeting will be a special Christmas gathering at the home of Mrs. A. C. Bowers, 1401 North Main street, Friday, December 13th—a lucky day for all who attend.

Sunshine Society
The regular meeting of the Santa Ana Sunshine Society was held Wednesday, Nov. 13, at Mrs. Kroll's. There was a large attendance and much interest shown in the work of the coming bazaar, which is to be held Saturday afternoon, Nov. 30. The location has not been decided upon as yet.

Remember this sale is for charity, so a generous patronage is hoped for. There are to be aprons, both kitchen and fancy, handkerchiefs, fancy articles and many other useful things.

Present Day Club
The second meeting of the season of this popular club will be held next Monday evening, at which time E. M. Nealley will discuss "Evolution and its Relation to Religious Thought." This much misunderstood subject will doubtless be treated by Mr. Nealley in his usual clear and illuminating style, and the members of the club will probably understand all about evolution before they go home. All members are requested to be on time at this meeting, which will begin at 7:30 sharp.

Hay Ride and Party
Last evening a hay ride was enjoyed by a number of young people, terminating in a pleasant surprise party at the country home of LaRue Leake, five miles northeast of Santa Ana.

The young folks presented Miss Leake with a memory basket, filled with daisies and ferns with cards bearing the name of each one present, attached to the ends of ribbons streaming from the handle. Games and music, with refreshments served at a late hour, were the pleasant features of the evening.

Those present were Misses Bernice Howels, Connie and Cecil Woodside, Grace Gebbert, Pearl and Ruth Richards, Gladys Thomas, Marie Harris, LaRue Leake; Messrs. Russel Cook, Roland Wilkinson, Verne and Gordon House, Roy and Harry Osbourne, William Sebastian, Charles Crum and Lester Tubbs.

ECONOMICS LUNCHEON

Happy Affair Managed by Capable Hostesses Demonstrated Canned Goods Menu

Household Economics Class, Number One, of the Ebell Society, had an unusually good meeting yesterday afternoon at the home of Mrs. J. J. Roper. An excellent attendance of members indicated that interest in this practical line of Ebell activity does not wane.

The study yesterday was on the subject of canned goods, and the menu for the luncheon that was given with Mrs. Roper, Mrs. C. V. Davis and Mrs. Henry Rutherford as hostesses, was composed entirely of canned products, from delicate soup to delicious dessert. The luncheon amply justified the conclusion reached in the study hour, that it was possible, by rightly employing canned goods, to achieve most satisfactory results.

The decorations of the table were unique and beautiful. The centerpiece was a huge glass jar such as is employed in the Chamber of Commerce exhibit, filled with mock oranges. An autumn effect was achieved by the use of the beautiful woodbine. On each place card was painted a can, and the card was in the nature of a conundrum, a blank after each name having to be filled with a word beginning with the word "can." The guessing of the necessary words created no end of amusement.

Democratic Women Celebrate
The Woman's Democratic League of Orange County held a rally last Tuesday afternoon at Neill's Hall, after the business meeting. Some short talks were made by members and Mr. Simons gave a very interesting talk. After the speaking the committee on entertainment invited all present to the Dragon, where ice cream and cake were served, and the company listened to one of V. S. Penland's talks. H. C. Head also gave a short talk. The guests of honor were V. S. Penland, Mr. Simons and H. C. Head.

Bridge-Luncheon
A luncheon was given yesterday by Mrs. Roscoe Whitted at her South Main street home to a group of her friends, the afternoon following being spent in bridge whist.

Mrs. Whitted used flowers sparingly but effectively, white chrysanthemums being in evidence in all of the rooms used. Green and white formed the color tone in the decorations of the table on which the appetizing luncheon was served at one o'clock.

There were three tables of whist players, and prizes were awarded as follows: First prize, Mrs. William Malone; second trophy, Mrs. John Tubbs, the consolation going to Mrs. C. M. Jordan.

The Fraternal Union of America will hold its annual election of officers Tuesday, Nov. 19, in G. A. R. Hall. As this is an important meeting all members are requested to be present. A social good time is expected to follow the election. Clara McCord, Sec'y.

Personals

Miss Beas Hill boarded the 8:15 car for Los Angeles this morning. An early morning car to Los Angeles was caught by Mrs. Hiram Connell today.

Mrs. William Smart and Miss Mary were among the early travelers via the Los Angeles bound electric line. Miss Mary went to join the enthusiastic Occidental rooters in the Occidental-Pomona game.

Miss Beas Trumpey went to the Angel City this morning for a stay until Monday with her sister.

Miss Marjorie Shaw spent today in Los Angeles, going up to the metropolis on an early morning car.

Mrs. C. C. Crose and Mr. F. C. Rowland were among those who made the week-end trip to Los Angeles today. Mr. Crose had a vague idea of going but he discovered this morning that a car containing the household effects of a brother who is coming to Santa Ana to live, had arrived and he at once saw it was "up to him" to look after it, so postponed his trip to the city.

Mr. and Mrs. H. H. Reeves and Miss Carrie Seaton traveled to Los Angeles this morning via the Pacific Electric. They are greatly interested in the Occidental-Pomona game played in the city today, as Walter Reeves is one of the Pomona players.

Misses Cora and Jennie Schuerer of Los Angeles, and Miss Helen Kerner of Glendora, are week-end visitors at the home of Mr. and Mrs. Maurice Yarnell.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Alston, Raleigh, N. C., once prevented a wreck with Electric Bitters. FATE OF GUNMEN IN ROSENTHAL CASE UP TO JURY NEXT MONDAY

NEW YORK, Nov. 16.—Monday night will bring with it the fate of the four gunmen charged with the murder of Herman Rosenthal. Yesterday witnessed the completion of the case for the defense. Today the state's witnesses in rebuttal were heard. BERLIN, Nov. 16.—A light metal shield, claimed to be capable of rendering infantry practically impervious against bullets, is said to have been invented by a German engineer named Schaumann.

Tobacco Grown in Idaho

Very satisfactory experiments have been made in the growing of tobacco in Boise Valley, Idaho. The work was done under the direction of a Minneapolis seed firm, which has much to do with the development of tobacco growing in Wisconsin. It is believed that the cool nights of Idaho will prevent the pupation of the tobacco worm, and that there will be less worms to bother the plants than in the warmer states. Then again it is believed that in the curing of the leaves the moisture conditions can be absolutely controlled, thus developing a uniformly high quality of leaf. With almost no humidity in the air fungi will not thrive. The only lacking elements of plant food in the Idaho soils for growing tobacco are nitric nitrogen and organic humus, and which are readily supplied by plowing under alfalfa, clover and other leguminous plants.

SHELDON TALKS TO WOULD-BE PASTORS

"In His Steps" Author Says
Success in Ministry Demands
All-Around Man

UNIVERSITY OF CALIFORNIA, Nov. 16.—Dr. Charles Monroe Sheldon, lecturer at Berkeley on the Edwin T. Earl foundation, delivered the first of his addresses before a large audience in the First Congregational church Thursday night. He chose as his topic for the lecture, "The Ministry and Its Place in the World." The talk was addressed especially to the college and seminary students who expect to take up this profession.

During the course of his remarks Sheldon explained concisely the duties of the up-to-date pastor. In meeting the objection, which he said had come to college Y.M.C.A. secretaries, that the ministry is an uninteresting occupation which does not appeal to ambition, Dr. Sheldon read a page from his own diary relating the multitude of requests and obligations fulfilled by him in his parish in one day. He made the plea for assistant pastors for all the larger churches where the work is overwhelming one man.

In introducing his theme the speaker described some of his personal experiences in seeing the sights in various cities on his lecture tours. He said that the best asset of the towns was the people he saw on the streets and not the skyscrapers. "Cities are not buildings; they are people," said Dr. Sheldon. "It is people among whom the ministry is busy."

The requisites which should be considered by every student thinking of entering this profession were enumerated as follows: Physical strength, intellectual strength, spiritual vision, initiative power, eloquence, a message, organizing ability, tact, knowledge of human nature, and optimism.

"It is a stupendous thing to be at the head of a church," said Dr. Sheldon. "It requires heroic virtues. Public speaking takes as much physical strength as opera singing. A minister cannot do the best work unless he is strong bodily. My motto is 'eat well, sleep well and laugh well.'"

"We have become so afraid of the appeal to the heart that we have forgotten the heart is as true a record of man as the head."

He told of the difference in the life of the minister in England and in America. The methods of Spurgeon, Henry Ward Beecher and Moody were adduced in the exposition of the duties of the profession. Tact was a quality much emphasized by Dr. Sheldon. "It can't be learned in the university or in the seminary, as they are at present. There ought to be a professor of conduct in all colleges," he said.

The English language, according to the lecture, will be the world language. The recent establishment of English newspapers in Shanghai, China, and the movement to put English into the curriculum of Japan's public schools were cited as instances of the growth of the tongue. Democracy and progressiveness was another requisite emphasized by Dr. Sheldon.

"The church is the worst place on earth for cliques," he asserted. "If a preacher can't get an evening audience he ought to go out on the streets and preach. We even gave a drama in our church recently and our young people acted it. It takes courage to do new things and still not break from the essential truths."

The conclusion of the address was that the watchword of the pastor should be "A vision and a passion."

"The minister must look on every man, not as he is, but as he may be," he assured.

The second lecture of the Earl series will be on "The Social Problems of the Church."

PROFITABLE DAILY TITHING.

"Daily Heavenly Manna." This little book is having the largest circulation of any of its kind and is conceded by Christians everywhere to be the most helpful.

If Christians allow the rush and crush of selfish ambition to deprive them of their daily portion of heavenly food, they must not be surprised if they grow spiritually leaner day by day, and if the peace of God gives place in their hearts to the discontent which is growing in the world, notwithstanding the multiplication of our comforts and privileges.

Daily Heavenly Manna contains a collection of Scripture texts with appropriate quotations for every day in the year. Surely the little tithe of time daily spent in partaking of its morsels of heavenly counsel cannot fail to profit all who partake. It is published to do good—not for profit.

Your Friends' Birth Dates.

An autograph and birthday record feature in this book is a great convenience. Opposite each day of the year are blank lines upon which you can secure the autographs of your friends and be reminded of their birthdays as they occur. This makes the book more valuable yearly. In ten years you would not sell it for ten dollars.

Besides it has a place for Birth Records, Marriage Records and Death Records. Also it has a table showing the day of the week of any date for one hundred and fifty years.

LOS ANGELES PRODUCE MARKET

Dried fruits are rather plentiful on the market, and the demand is picking up considerably. Prices are consequently somewhat more steady, especially in the case of large prunes which are very scarce this year. In general, however, dried fruits are a little cheaper than at this time last year.

Lemons and grapefruit were a little more in evidence than usual on the market, but prices remain about the same. Receipts of apples were light, 602 boxes. Grapes are becoming scarcer and a general tendency toward firmness is noticeable. A considerable quantity of persimmons and pomegranates are steadily arriving and are taking the place of the fresh fruits going out of season.

The demand for onions was very good, although they were rather weak. Receipts were 300 sacks. One sack of beans and ten sacks of sweet potatoes were received. The price on the latter vegetable has been much firmer in the last few days. Receipts of potatoes were 2715 sacks. The demand was very good for other vegetables but price changes were of minor importance.

Receipts of staple products were light, and the market displayed a firm tone. Fifty-three cases of eggs came in, and 16,250 pounds of butter and 500 pounds of cheese were received. The tendency in local butter and eggs is toward higher prices, but cheese is likely to remain steady.

PIONEER INJURED AT MOUNTAIN HOME

Thought That County Bee Inspector Had Ribs Broken in Accident Yesterday

Word was received here today of an accident that occurred yesterday afternoon at the home of County Bee Inspector J. E. Pleasants in the San Jacinto Canyon. Pleasants was injured, how badly is not yet known. Details of the accident are lacking.

Mrs. Pleasants sent a note here to the family physician, asking him to come up to see Pleasants. The note merely stated that Pleasants was hurt yesterday afternoon, and that the indications are that he has some ribs broken.

Pleasants is one of the pioneers of his section. But few people have lived here longer than he.

LAXATIVE FOR OLD PEOPLE—"CASCARETS"

What Glasses are to Weak Eyes—Cascarets are to Weak Bowels

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

SAN BERNARDINO COUNTY GIVES ROOSEVELT PLURALITY

SAN BERNARDINO, Nov. 16.—The official canvass of the returns of the presidential election was completed yesterday by the board of supervisors and the figures of the first electors on each ticket show Roosevelt to have a plurality over Wilson in the county of 367 votes. There is little variance in the vote down the columns. The first elector vote is Roosevelt 6202, Wilson 5835.

MISSOURI GIRLS TOMATO RAISERS

Will Plant Tenth of Acre Each; U. S. Government Will Furnish Seed

KIRKSVILLE, Mo., Nov. 16.—Tomato-growing and canning under the supervision of the United States department of agriculture, as a stimulus to intensive cultivation of the soil, is to be tried next spring by the school girls of the Sugar Creek district of Adair county. The plan was announced last night by County Superintendent Sipple after a conference with O. H. Benson, specialist in charge of club work for the department of agriculture.

The Sugar Creek district includes some of the most unproductive land in the county. Each girl in the school is to plant one-tenth of an acre with seed furnished by the government. The department of agriculture also is to furnish directions and advice from time to time. The pupils will be required to keep accurate record of the development of their crops, and after the harvest send a description to Washington.

The proceeds from the sale of the tomatoes will go to the girls who grow and can them, the government getting its returns in information for use in further experiments.

WAR ON CHARTER OF LOS ANGELES

League of Small Homes and Businesses Formed for Cause of "Self-Protection"

LOS ANGELES, Nov. 16.—For the purpose of working against the adoption of the new city charter of Los Angeles, the League of Real or Personal Property Owners was organized recently and immediately launched into a vigorous campaign.

The charter members of the league are men owning moderate priced homes and places of business who have banded together in the interests, so they state, of self protection.

George J. Davis of 2810 Central avenue was elected president of the league and C. O. Benson of 1041 St. Andrews place, secretary.

Containing that the new charter will place extra burden upon the tax payers and particularly the small tax payers, the league will open headquarters immediately, with an assistant secretary in charge to wage a vigorous campaign for its defeat.

The league contends that its most serious objection against the charter is that it purports to put a limit on the indebtedness to be incurred by the city, yet actually neglects to place that limit.

BULLETS KILLED 23 ON U. S. BORDER

Fatalities From Mexican Bullets on This Side of Line Told of by Army Board

WASHINGTON, Nov. 16.—Twenty-three persons at least were killed or wounded on the American side of the Mexican boundary last year by bullets fired during the fighting between the rebels and government forces under Madero.

This fact was developed by the special army board, headed by Col. Francis Kernan, which has just returned to Washington from an inspection trip to El Paso, Tex., and Douglas, Ariz., where most of the trouble occurred.

REBELS DEFEAT FEDERALS IN ENGAGEMENT NEAR LINE

EL PASO, Tex., Nov. 16.—Four Mexican federal soldiers are held by United States troops at Hachita, N. M., subject to orders from the war department, says a report received today by General E. Z. Steever at Fort Bliss. They fled across the river after their fellows were routed by a band of rebels at Colonia Fernandez, just below the New Mexico line. The refugees, who crossed into the United States with their rifles report that a small detachment of federalists met a band of rebels under Col. Inez Salazar and after a sharp skirmish the government troops were dispersed.

Rebels became so bold today as to smuggle several boxes of ammunition into Juarez, the border town threatened by attack. The cases were discovered by federal troops concealed in a wagon of hay on the public plaza. The secret service has advised that unarmed rebels recently have been crossing from El Paso to the Mexican town.

The reported arrest at Albuquerque of Jose Cordova, secretary general to the revolution, is denied by General E. Z. Steever, although the report is confirmed officially by General Tracy Aubert in Juarez.

MINE FATALITIES IN U. S. ON DECREASE

Of 1453 Men Killed in Coal Mines in 1912, 660 Were in Pennsylvania, 273 W. Va.

WASHINGTON, Nov. 16.—There were 1453 men killed in and about coal mines of the United States during the first eight months of this year, according to an announcement of the bureau of mines yesterday.

The figures indicated, the report stated, that unless there were a number of exceptional disasters during the other four months of the year, there would be a substantial decrease in the total number of deaths in 1912 as compared with 1911, when 2719 men were killed.

There has been a substantial decrease in the fatality rates in the coal-mining industry of the United States in the last half decade.

Of the fatalities in the first eight months of this year, 660 were in Pennsylvania and 273 in West Virginia.

WORKERS OF SUNDAY SCHOOLS ORGANIZED

Orange News: The Graded Union, the organization of which is for the purpose of forwarding all branches of Sunday school work, received a most auspicious start last evening, when a gathering of Sunday school workers from every denomination in the city was held at the First M. E. church.

The following officers were elected: President, A. L. Higgins; vice-presidents, Miss Sue Scarritt, Mrs. F. M. Gulick, Mrs. Grace Campbell, Mrs. F. V. Pruitt, D. C. Drake, E. S. Palfister; secretary, Miss Elsie Deam.

The represented teachers, officers, workers, and others are interested. Miss Meme Brockway, the principal figure of the occasion, laid, in her usual masterful way, the foundation for the art of "story telling," especially Bible story telling. She magnified the art so ably that all present could not help but see the advantage and power it contains.

She is giving the Orange union the same course she gave the Sunday School Institute at Long Beach last summer, and with her charts makes her subjects most interesting. She teaches that all workers can learn the fine art and gain added efficiency in their work.

It is regarded as an opportunity that Sunday school workers in and about Orange can not afford to lose.

ONE IS DEAD, THREE AILING

Ptomaine Poisoning Results
Fatally; Family of Four
Children Affected

Huntington Beach News: Ptomaine poisoning is said to have been the disease which resulted Wednesday afternoon in the death of Denton, the four-year-old son of Clarence Hyder of this city, who died at the home of his grandmother, Mrs. S. J. Stokes, on Twelfth street. The family came here recently from Oklahoma.

Dr. G. A. Shank was called to the Stokes home Tuesday afternoon and found the four children of the family with symptoms of ptomaine poisoning.

After administering the usual treatment, the physician left, and later was told by phone that all were recovering and his services were no longer required. On Wednesday he received a hurry call from Mrs. Stokes and upon his arrival at her home found Denton Hyder in convulsions and in a dying condition. The other three children will recover.

Questioned as to the probable cause of the poisoning, Mrs. Stokes attributed it to the food which the children had eaten the night before they were taken ill.

Funeral services for the dead boy will be held Friday afternoon at 1:30 o'clock at the Church of Christ, Rev. Kirk officiating and interment will be in the Huntington Beach cemetery.

HIGH SCHOOL NOTES

(By CHAUNCEY POND)

Miss Mosher, general secretary of the Young People's branch of the W. C. T. U., spoke Wednesday afternoon to the students of the high school. The speaker said in part that this is the health age; that more is being done at the present time to preserve health than ever before. She told of what has been done in the past, what is being done at present and what is yet to be completed.

Superintendent Cranston traveled to Santa Barbara Monday where he spoke before the county institute. On Wednesday Mr. Cranston addressed the students of Los Angeles Normal. There are a number of former Santa Ana High School students at the Normal who were very glad to listen to Mr. Cranston again.

Several educators of the city met with Miss McFadden, the city librarian, Monday evening at the library, to devise some plan which would remedy the present overcrowded condition at the library. On account of many students being interested in debating and other studies which require much outside reference reading, the table ca-

paicity is taxed to its utmost.

Miss Gowdy of the mathematics department has been unable to leave her home the past week, due to a bad attack of the grippe.

Principal Hughes of the commercial school has been absent this week, all on account of one wild duck. Mr. Hughes went hunting last Saturday and shot one duck. Reports do not state whether he shot one more than one but this one caused the trouble. In wading in after the duck, the hunter got wet and a very bad cold resulted.

Song and yell practice was held Thursday afternoon. New songs and yells have been composed and a great deal of enthusiasm is in evidence at the meetings.

The students met yesterday morning for a debating and football rally. School songs and yells stirred up enthusiasm.

The Girls' Glee Club favored its audience with two selections. Under the efficient leadership of Miss Ely the club has progressed rapidly.

Malcolm Tedford was elected song leader, following the resignation of Winifred Husser.

Principal McMath and Sophie Hardy spoke on debating and what the prospects were. Manager Smith boosted the football game with Pasadena this afternoon. The local boys still have a chance for that championship. Today's game will be snappy and close.

The local debaters met defeat last night in the county league debate with Anaheim for the possession of the S. M. Davis cup. While Sophie Hardy and Selwin Sharpe have worked very hard for Santa Ana and put up some strong argument in the debate yet they were not hardly as convincing as Mr. Waller and Mr. Hedstrom of Anaheim.

A large crowd attended the debate. Anaheim was represented by a large delegation and Santa Ana came out strong. Spirited yells and songs by a large bunch of rosters of both schools lessened the seriousness of the contest.

Anaheim, who had the affirmative of the question, "Resolved, The United States Should Accede to England's Proposal to Submit to The Hague Court the Question of Free Tolls for American Coastwise Vessels, Passing Through the Panama Canal," opened with some strong points by Mr. Waller. Miss Hardy brought forth good arguments for the defense of the negative. Mr. Hedstrom of Anaheim was a good speaker as was also Mr. Sharpe. This was Mr. Sharpe's first public debate, and he should, with more experience, become a good debater.

While waiting for the judges' decision, the Girls' Glee Club pleased the audience with a selection.

AMUSEMENTS

Valeska Suratt, the present day queen of American female photographic models, is the latest theatrical star to cast her lot with the Messrs. Shubert, foremost rivals of the mighty theatrical trust. Miss Suratt is credited by the New York critics with being the most beautiful woman on the American stage, and her new managers are said to have afforded her every opportunity to glitter in the most advantageous manner in her forthcoming public appearance. "The Kiss Waltz" has been chosen as the most appropriate bill of play for the purpose of correctly presenting the lovely Valeska. This operetta, a Viennese melody, had a record season at the New York Casino, and many of the most able musical critics claim it is actually equal to the best melody scores of Gilbert and Sullivan. With the noted beauty will come a famous supporting cast of singers and players, and a chorus of Broadway beauties. "The Kiss Waltz" is the work of C. M. Ziehrer, who composed "Mlle. Mischief," made famous by Fritz Schaff. The story of the operetta is by Edgar Smith, and most of the lyrical numbers were written by Matthew Woodward. The Messrs. Shubert promise the usual lavishness of scenic detail exploited in the best of Shubert shows. The attraction is heralded as one of the very largest musical amusements on tour.

S. P. FREIGHT RATES CUT BY COMMISSION

Imperial-Los Angeles Shippers
Get Reductions That May
Cut Living Cost

SAN FRANCISCO, Nov. 16.—The Railroad Commission has given a decision in the case of George A. Long against the Southern Pacific Company. The decision reduces the rate from Imperial to Los Angeles on fresh meat in carloads from 64 cents a hundred pounds to 37 cents. The rate on packing house products, in carloads, between the same points is reduced from 48 cents a hundred pounds to 32 cents.

This entails a reduction of 43 per cent in the rate on fresh meat and the reduction of 33 per cent in the rate on packing house products, and establishes a rate on these commodities which, it is contended, should permit of the movement of fresh meat and packing house products in large quantities from Imperial to Los Angeles.

The commission gave a decision granting permission to the Southern California Utilities Company to issue bonds in the sum of \$10,000,000.

The bonds are to be used for the development of an extensive land and irrigation system embracing 30,000 acres in Riverside County.

SUNDAY SCHOOL CONVENTION SOON

Southern California Association
to Open on Nov. 19
in Redlands

The twenty-third annual convention of the Southern California Sunday School Association will be held Nov. 19-21 at Redlands. Many church workers from Los Angeles and other cities are to take part in the program.

Judge Curtis D. Wilbur of Los Angeles will give an address Thursday evening of the convention on "What Our Bible School Boys Know About the Bible." Prof. J. H. Montgomery of the University of Southern California will speak the same evening on "The Kingdom and the Commonwealth."

Dr. William Horace Day will give an address Wednesday evening on "The Educational Challenge of the Church," and C. R. Fisher, general secretary, will give a stereopticon lecture the same evening, in which he will show the adult class movement in action.

Three addresses will be made Tuesday night. Rev. J. N. Field, D. D., president of the Redlands University, on "The Bible and the Child;" Rev. John Albert Eby, D. D., "The Bible and the Nation," and Rev. J. Walter Campbell, "Sign Posts on the Journey from Youth to Manhood."

The sessions are to be interspersed with conferences, reports of officers and luncheons. The meetings are to be held in the Methodist, Congregational and Baptist churches.

ANAHEIM EBELL BAZAAR A SUCCESS

ANAHEIM, Nov. 16.—The Ebell Society of this city opened its bazaar in the public library Thursday afternoon. The bazaar lasted for three days, ending tonight with a baby show. The booths were well patronized in the afternoon, but the big rush came in the evenings. Dinner was served at 5:30, and long before this time there was a large gathering waiting for the order to be seated. At all times there was a large crowd at the doors waiting for their turns to sit down to the good home cooked chicken dinner, until finally everything was eaten. The ladies expected a crowd, but their estimates were too small. A great many could not be accommodated.

The music for the occasion was furnished by the Anaheim High School Orchestra and by a mixed quartet of prominent people of this city. Mr. Ross, Miss Look, Miss Balfour and Mr. Angell. The music played on while the merry-makers made their purchases.

Debating is taken up as a regular part of the work in the Anaheim High School and special classes have been formed which meet every day the same as in any other academic work. Miss Veda R. Walker has taken the boys in hand and has revived the spirit of debating here.

Walter Spathe and Hans Storm have been working hard on their debate with Hollywood, which comes near the end of this month. Both these boys are experienced debaters and have, as a team, won several arguments for the school. In the debates with Covina and Pasadena last year they demonstrated their ability to win and bring back honors for their school. The outlook is certainly favorable for a most successful debating season.

REV. J. E. COCHRANE
BE SPEAKER TOMORROW

Quarterly meeting services will be held in connection with the revival meeting at the Free Methodist church, 313 Fruit street, tomorrow. In order to make way for the revival effort the sacramental service will be held immediately after the Sunday school and before the morning sermon.

Rev. J. E. Cochrane of Los Angeles, district elder of the Riverside district, who has been assisting the pastor during the week in evangelistic services, will be in charge and preach both morning and evening.

Last night the evangelist spoke with much emphasis from the text, 2 Kings 6:16, "They That Be With Us are More Than They That Be With Them." Much feeling was manifest in the congregation as the contrast was so vividly drawn between the forces that are on the side of the sinner and those that are on the side of the Christian. Two earnest seekers bowed at the altar at the close of the sermon.

There will be no service tonight. The meetings will continue each evening next week at 7:30 except Saturday.

REVIVAL DRAWING GOOD ATTENDANCE

"Lonesome Old Age" and Why,
Told of in an Impressive
Way Thursday Night

The revival services at the First Christian church have been well attended through the week. Last night the subject of the sermon was "The Remarkable Failure of a Gospel Sermon."

On Thursday evening the sermon developed the fact that the "Lonesome Old Age" was the result of a life spent in the interest of self and at its close was compelled to walk the dreary end of the journey alone. With the selfish life was contrasted the life of righteousness and it was shown what a benediction to all was the peaceful glorified old age of the Christian. The text for the evening was the first verse of the last chapter of Ecclesiastes. The speaker undertook to show that the things we associated ourselves with in our youth were the things that stayed with us during old age and for ever. That Memory never dies; it is indestructible. One cannot deceive himself. He meets himself in judgment every day. He cannot hope for a reward that he knows is not in his life. His soul pays him no tricks. Better then in youth to walk with the Lord and learn His ways so that in our old age He will sustain and comfort us. He is a friend that sticketh closer than a brother. Remember your mother's God, her prayers, solicitude and deep concern for your eternal welfare.

At the conclusion Mr. Crittenden sang with a great deal of effect, "My Mother's Prayer."

Mr. Schall's instruments are all reliable makes, such as he could recommend and guarantee to you, his neighbors and fellow citizens. They are worth every penny of the prices he placed on them. But we are not satisfied to sell them slowly as he would have done. WE MUST FORCE THEM OUT, THOUGH IT WILL TAKE BARGAIN PRICES TO DO IT. Sale is now on and you can select—

Selling out his business was a real sacrifice to Mr. Schall. Sickness in his family compelled him to make the move. What he has to say in the matter you can read below. Certainly his letter attests to the genuineness of this sale, and the reasons which compelled him to make this sacrifice.

READ MR. SCHALL'S LETTER

Santa Ana, Cal., Nov. 13, 1912.

Geo. J. Birkel Co., Los Angeles, Cal.
Gentlemen:—After careful consideration I have concluded to accept your offer to purchase my entire stock of Pianos, Player Pianos, Player Music, Stools, Benches and Seats. It is, of course, a great disappointment to myself and family that we cannot carry out our plans, establishing a business here, but sickness in my family makes it absolutely necessary for me to return at once to Minnesota. It is for this reason only that I am compelled to accept your offer and act quickly—I personally selected every one of these Pianos and Player Pianos, have sold them for years in my eastern home, know how well they wear and give musical satisfaction—and in turning these instruments over to you, I wish to express my thanks for your prompt action in assisting me to hurriedly adjust my affairs and to recommend these instruments and your very excellent concern to any who may be thinking of buying a real musical instrument.

Respectfully,
(Signed) SCHALL MUSIC HOUSE.

WATER BONDS SOLD AND MONEY SECURED

Fullerton News: The city's water bonds have already been sold to the State of California and the sum of \$80,388.91 is waiting in the treasury as a result, and the work will be pushed as fast as possible, unless halted by an injunction proceeding prosecuted against the city by the water company. It is not thought, however, that the court will grant a permanent injunction, so as to prevent the city from proceeding with the work of installing the water plant.

The building of the sewer plant and the water works will involve the expenditure of quite a large sum of money, which ought to provide home labor with much work. The work cannot be done too quickly. The city is already advertising for bids for the drilling of the wells.

HOLLY FACTORY TO CLOSE IN WEEK

Huntington Beach News: The 1912 season at the factory of the Holly Sugar Company in this city will close about November 23, when all the beets under contract to it will have been harvested. The season has been an extremely successful one and the factory's relations with both employees and ranchers are entirely satisfactory. During the coming winter all the machinery will be overhauled and made ready for next season's operations, the requisite force of men being employed for the purpose. No immediate enlargement of the factory is contemplated, as this year's operations have demonstrated that it can care for a beet tonnage largely in excess of the actual capacity with which it is credited.

Strength

The strength of a banking institution consists not alone in its financial resources but also in the character and ability of its officers and directors and in the confidence and loyalty given it by the community of which it is a part. These banks are pre-eminently strong in ALL respects.

Service

The proper conception of a banking institution's duties and privileges includes service to its community. A bank must pay its stockholders a fair rate of interest in order to secure and hold investments in its stock; but its duty does not end here; it must also render REAL SERVICE to its community in the way of public enterprises and private support. These banks point with pride to their records in these respects.

Solvency

A banking institution to be really and truly solvent must have more and other assets than merely money and credits in excess of its money liabilities. It must have a surplus of character, a reserve fund of reputation, a credit balance of experience, large and moral resources. These banks invite examination as to their moral solvency.
